

look good **feel better**  
foundation

*of the Personal Care Products Council*

Dear Vladimir,

May 2, 2021

We're so happy to work with the Giving Palette! We thank you for donating a portion of the proceeds from your company to Look Good Feel Better.

Look Good Feel Better believes that cancer care means treating the whole person, including the well-being and the quality of life of all the people that are affected. It's easy to forget how much of our identity and confidence is related to our physical appearance — things like hair and body image can be a powerful part of that. Cancer can rob someone of their sense of control, self, normalcy and dignity.

While the past year presented many challenges, we found opportunity to rethink how we serve people in cancer treatment. Together - with your support - we can embrace a new and ambitious future. With more than three decades of service and achievements, Look Good Feel Better remains the only global cancer support charity solely dedicated to boosting the physical and emotional wellbeing of people undergoing cancer treatment. Our free workshops have reached more than 2.1 million people in 27 countries around the world.

The Giving Palette's donations will be key to enabling us to continue to expand our free in-person and virtual workshops, reaching more diverse communities in need and advance our technical and volunteer capabilities to support more of the nearly 2 million people diagnosed with cancer each year in the USA. We also hope to update our Young Adult and Men's Program in the coming 18 months.

On behalf of our volunteers, staff, patients, and their families, we thank you for your support.

Sincerely,

**Nancy J. Logan**, *Director of Corporate Partnerships & Philanthropy*
